

AP Environmental Science

Summer Assignment 2023-2024

Please join Google Classroom for the complete version of this assignment.

Period 2: 3qbv25q
Period 3: t5zsaup
Period 5: dzqm4hp

Welcome to **AP Environmental Science!** The study of environmental science necessitates synthesizing material about a variety of different subjects. Environmental science is **interdisciplinary**, embracing topics from geology, biology, environmental studies, environmental science, chemistry, and geography. To facilitate the learning process, please complete the assignments in this packet. The assignments are designed to enhance your **environmental literacy** as well as introduce you to the topics you will study in APES. In addition, a section on review topics is provided.

Part 1 Digital ScrAPESbook of Current Events

Your digital ScrAPESbook is due the first week of school. Please upload your work into Google Classroom.

During the first week of school, you will be given a summative assessment analyzing sources of information about environmental issues (reading passages and questions).

Part 2 Problem-Solving, Chemistry, Earth Science Review, and Practice

The problem-solving, chemistry, and earth science sections are for your review. I will not check or collect your work. Please check your work with the key provided in Google Classroom.

If you have any questions or concerns, please email your teacher or leave a private comment in Google Classroom.

Enjoy the summer!
Ms. Lippi and Mr. Florance
