- To increase student engagement and class participation, students will be required to keep their Chromebook cameras on during class. Exceptions will be made only for approved, documented cases.

NURSING/HEALTH SERVICES

Please be assured that your school nurses have been and will continue to closely monitor the rapidly evolving COVID-19 developments affecting our community. At this time, we need our families to continue to communicate with us if you think that you, your child, or a family member may be exhibiting signs and symptoms of COVID-19.

COVID-19 symptoms most often are mild for people under 30 years old, who do not have any chronic medical conditions. These include a runny nose, cough, sore throat, or fever. In severe cases difficulty breathing and pneumonia can also develop. If you, your child, or a family member starts to exhibit any of these symptoms, please contact your personal physician for further instructions.

Precautionary measures to remain healthy and avoid respiratory illnesses were emailed to students in the high school earlier this year and reviewed in person with students in the middle school. It is important to remember to continue to practice these simple steps to stay healthy during the COVID-19 pandemic:

- Avoid close contact with sick people.
- While sick, limit contact with others as much as possible.
- Stay home if you are sick.
- Cover your nose and mouth with a tissue when you cough or sneeze.
- Avoid touching your eyes, nose, and mouth; this is how germs spread.
- Cough into your elbow, not your hands.
- Wash your hands often with soap and warm water for at least 20 seconds.
- If soap and water are not available, use hand sanitizer with at least 60% alcohol.

Our High School Nurse, [Karen Kinsey](#) (RN, BSN, CSN-NJ) and Middle School Nurse [Rachel Hall](#) (BSN, CSN-NJ) will monitor their emails during each remote learning day.
