

The First PARCC Parent Score Report

The PARCC tests measure whether students are meeting new, higher academic standards and mastering the knowledge and skills they need to progress in their K-12 education and beyond. They test more complex skills like critical-thinking, persuasive writing, and problem-solving. Scores may look different and lower on this new test. That does not mean students are learning less, it means the tests have changed and ask students to meet a higher bar.

Score reports for the first year of the PARCC test are coming out in the fall. This is a transition year and extra time was required to set the threshold scores and prepare the first score reports. Performance levels, the levels that indicate how well students met grade level expectations, and the score ranges that make up each of the five levels, had to be established based on actual student results. Next year, the results will come much sooner – close to the end of the school year. Parents receive two reports for each child – one for the English language arts/literacy test and one for mathematics.

MATHEMATICS PERFORMANCE

Key Information Provided in the Score Report

1 Overall Student Performance – This section of the report shows your student’s overall numerical score and the performance level achieved based on that score. Level 1 indicates a student is not yet meeting grade level expectations and Level 5 indicates the student has a strong understanding of grade level material.

Page two of the score report provides additional information about your child’s score and level of performance. Level 4 and above indicates that a student meets or exceeds grade level expectations and is well prepared for the next grade level.

2 Score Graph – The colored graph shows the score ranges for each performance level and where your child’s score falls within that range. This gives you an indication of how close your child is to achieving the next level.

3 Score Comparisons: Unlike many previous state test score reports, PARCC score reports show how your student is performing compared to students in the same grade at the same school, across the school district, around the state, and across the country.

Additional Resources:

- For more information about the PARCC score report and to view sample test questions, visit understandthescore.org.
- To learn more about grade level expectations, view the PTA’s Parents’ Guide to Student Success at pta.org/parents/.

Parent Guide to the PARCC Score Report

ADDITIONAL INFORMATION ABOUT YOUR CHILD'S MATHEMATICS SCORE

4

MAJOR CONTENT

In this area, your child did not do as well as students who met the expectations.

Students meet expectations by solving problems involving geometric proofs, transformations on shapes, right triangles, trigonometry, coordinate geometry, and applications of geometric concepts.

EXPRESSING MATHEMATICAL REASONING

In this area, your child did as well as or better than students who met the expectations.

Students meet expectations by creating and justifying logical mathematical solutions and analyzing and correcting the reasoning of others.

ADDITIONAL & SUPPORTING CONTENT

In this area, your child did almost as well as students who met the expectations.

Students meet expectations by solving problems involving transforming shapes on a coordinate plane, geometric constructions, circles, and volume.

MODELING & APPLICATION

In this area, your child did not do as well as students who met the expectations.

Students meet expectations by solving real-world problems, representing and solving problems with symbols, reasoning quantitatively and strategically using appropriate tools.

For a list of the major and additional content at each grade level, see parconline.org/math.

Detailed Breakdowns – The score report also provides information about your child's performance on specific skills within mathematics, so you can see where your student is excelling or needs additional support. Each area includes a description of the skills needed to demonstrate a clear understanding of grade-level standards.

5

Explanatory Icons – This is a guide to the icons used above, so you can quickly see how your child's performance in each area of the test compares with that of students who met grade level expectations.

What now? How the PARCC score report can be used to enhance your child's education:

- Schools and districts can use the report information to better plan instruction, support, and enrichment for students.
- Teachers can use this information to personalize instruction to meet individual student needs.
- Parents can use this information to understand their child's needs and strengths and work with their teachers and school to support their child at home. Find resources at UnderstandTheScore.org
- It is important to have regular check-ins with teachers to help ensure your child is learning the skills necessary to remain on track.
