October 20, 2020

Dear West Essex Families,

As of today, three additional individuals at West Essex High School have tested positive for COVID-19. According to the health department, these new cases are linked to exposure outside the school setting. It was also determined these individuals had no close contacts in our buildings and those required to self-quarantine were identified through the contact tracing process. Health departments act at all times in accordance with all applicable municipal, county, state, and federal laws and persons who have tested positive for COVID-19 are under isolation from the public.

You can expect follow-up communication later this week regarding school related activities occurring after Friday, October 23 as we remain in touch with our local health officials.

Again, thank you for your ongoing patience.

Sincerely,

Damion Macioci
